WORK EXPERIENCE

LIV4.AI (Remote Full-time)

Jul. 2025 – Present

Founding AI Engineer

Bologna, Italy

- Full ownership of AI product development and technical leadership of a growing team of AI Engineers, from architecture and implementation to enterprise delivery
 - **Stack:** Python, AI Agents, Prompting, LLM, LangChain, LangGraph, MCP, AWS
- **Key achievements**
 - Architected complete multi-agent product with **10+** specialized agents and dozens of custom tools, achieving **95%** accuracy through extensive context engineering and workflow orchestration
 - Built production RAG system processing **100K+** legal documents with advanced hybrid retrieval optimization, achieving better accuracy and lower latency than target benchmarks
 - Designed and fully built multi-agent system memory architecture, achieving **95%** context accuracy while reducing costs and latency by **75%**
 - Implemented secure autonomous agent access to APIs and databases for **CRUD** operations and real-time data analysis
 - Delivered all sprint objectives ahead of schedule, maintaining consistent **100%** on-time delivery

Business Group Srl (Hybrid)

Mar. 2024 – Jul. 2025

GenAI & Agentic AI Engineer

Bergamo, Italy

- **Stack:** Python (YOLO, LangChain, LangGraph, OpenCV); TensorFlow; Api REST, NoSQL.
- **Key achievements**
 - Trained Computer Vision AI models for skin imperfection integrating it into treatment machines
 - Fine-tuning of an AI chatbot specialized in skincare improving consistency by **85%**
 - Developed a web app using Next.js, Node.js, React, Tailwind CSS, and a mobile App with React Native

EDUCATION

Epicode Institute of Technology, Malta (2025 - 2028)

BSc Honours in Computer Engineering and Artificial Intelligence

ITIS Guglielmo Marconi, Dalmine (2020 - 2025)

Computer Science Diploma

- Final Grade: 94/100

TECHNOLOGIES, SKILLS & INTERESTS

- **Technologies:**
 - **AI & ML:** Python, LLM, LangChain, LangGraph, RAG, Computer Vision, Deep Learning (TensorFlow)
 - **Full-Stack Web & Mobile:** (React, Javascript, TypeScript, React Native, Node.js, CSS, HTML)
 - **Databases & APIs:** GraphQL (Hygraph), PostgreSQL, MySQL, DynamoDB
 - **Infrastructure & DevOps:** Linux, AWS, Docker, Cloud Services
- **Soft Skills:**
 - **Languages:** English (B2+), Italian (Native)
 - Strong motivation to learn and grow especially in AI & Machine Learning
 - Experience in using diverse technologies thanks to a strong theoretical and practical foundation.
- **Interests:** AI & Quantum Computing, Machine Learning, Traveling, VideoGames, Sci-Fi
